Abstracts

Analysis of the hypericin and pseudohypericin content of commercially available St. John's wort preparations (Draves and Walker) 150

Assessing the impact of a pharmacist in a heart function clinic (Bucci and Jackevicius) 154

Assessment of the impact of an automated medication dispensing system on pharmacists' clinical interventions (Pitre and others) 155

Assessment of the therapeutic effect and economic impact of standardized order forms on the prevention of post-operative nausea and vomiting (PONV) (Frighetto and others) 303

Bronchospasm caused by sensitivity to non-medicinal metered dose inhaler components (Wadden and Bayliff) 148

A case of drug-induced intractable hiccoughs (Bhajan-Mathur) 149

Chemical stability of furosemide in mini-bags and polypropylene syringes (Donnelly) 301

Chemical stability of hydromorphone with bupivacaine hydrochloride in polypropylene syringes (Donnelly) 301

Cloxacillin induced acute interstitial nephritis (Yoong and others) 156

Communicating the transition to chlorofluorocarbon-free metered dose inhalers (Allison) 300

Comparing bupropion and slective serotonin re-uptake inhibitors in the treatment of depression: a systematic overview (Buckle and Dolovich) 147

A controlled study to measure the ability of an automated system to improve drug distribution efficiency (Dranitsaris and others) 146

Cost-minimization analysis of azithromycin IV/PO versus cefuroxime IV/PO erythromycin IV/PO for community-acquired pneumonia (Wong and others) 154

The development and implementation of a tech check tech program at a tertiary care hospital (Dyck) 302

Development and implementation of an automated amantadine dosing program for use during an influenza outbreak in a long term care facility (Viana) 156

The development and implementation of guidelines for the use of lipid amphotericin B formulations in a paediatric hospital (Griffiths) 158

Development of a patient information booklet on the management of side effects for peripheral blood stem cell transplant patient (Allan and Diment) 153

Development of an HIV pharmacy practice specialty residency (Tseng and Foisy) 158

Drug interaction between ticlopidine and cyclosporin (Iroaga and others) 147

A drug use evaluation of intravenous amiodarone in the intensive care unit (Huber) 300

A drug use evaluation of omeprazole in adult inpatients (Methot and McKenna) 149

Drug use in an acute myocardial infarction: a measure of quality care (Brun and others) 155

Economic impact of a standardized orders for antimicrobial prophylaxis (S.O.A.P) program (Frighetto and others) 152

Educating professionals regarding congestive heart failure (Bhajan-Mathur) 154

Evaluation d'un formulaire d'ordonnance de départ en médecine interne (Paquette-Lamontagne) 152

The evaluation of a pharmacist facilitated antibiotic algorithm in the treatment of uncomplicated skin and soft tissue infections (Manuel and others) 150

Evaluation of pharmaceutical care implemented in a chronic care hospital (Ruth and others) 156

Evaluation of the effect of intravenous L-carnitine on quality of life in chronic hemodialysis patients (Shalansky and others) 157

Evaluation of the efficacy and safety of intravenous vitamin K_1 for the treatment of coagulopathies in critically-ill patients (Campbell and others) 155

Evaluation of warfarin nomogram in orthopedic surgery (Bayliff and others) 300

Hematologic dyscrasias associated with ticlopidine therapy: proof of causality (Paradiso-Hardy and others) 147

The impact of a pharmaceutical care model for non-institutionalized elderly: results of a randomized, controlled trial (Grymonpre) 152

Implementation and benefits of a documentation system designed to facilitate pharmaceutical care provision on a rehabilitation unit (Chang and others) 155

Implementation of an evidence-based medicine prescribing initiative (EBPI) (Johnson and Martin) 157

Implementing a pharmacy-based antibiotic sensitivity reporting program for nursing station practice (Yelland and others) 302

Intravenous insulin nomogram improves blood glucose control in the critically ill (Brown and Dodek) 151

Niacin-induced cystoid macular edema (Karakashian and Gonder) 148

A novel ciprofloxacin stepdown program in the treatment of highrisk febrile neutropenia: a clinical and economic analysis (Marra and others) 149

Patient weight does not affect anticoagulant response to low molecular weight heparin (LMWH) (Wilson and others) 146

Physical compatibility of sodium nitroprusside with 20 selected critical care medications (Carfrae and others) 150

A pilot, prospective cost analysis comparing unfractionated heparin vs. enoxaparin in acute coronary syndromes (Pearson and others) 148

Population pharmacokinetics of fentanyl in healthy volunteers (Ariano and others) 301

Propranolol for the prevention of postoperative arrhythmias in general thoracic surgery (Bayliff and others) 152

Proton pump inhibitors in acute upper gastrointestinal bleeding peptic ulcers: a meta-analysis (Zed and others) 303

Quick reference cards: easy access infection control information for staff and physicians (Piaskowski and others) 150

A randomized cefotaxime drug use evaluation to measure the impact of pharmacist interventions on appropriate prescribing (Spizzirri and others) 146

Randomized controlled pilot study comparing the management of sodium warfarin therapy in an anticoagulation clinic with routine medical care: a patient satisfaction survey (Wilson and others) 146

The relationship between pharmacy refill record adherence and viral load in HIV patients (Henson and others) 157
Report of heparin induced priapism (Kwan and Arustei) 156
A retrospective analysis of community IV therapy clients treated with cefazolin/probenecid combination therapy (Wieler and others) 302
A retrospective analysis of risk factors and prognostic outcomes in patients with *Clostridium difficile*-associated diarrhea (Gentile and others) 301
